

PCS Student Responsible Use Policy (RUP)

Statement of Purpose

Peru Community Schools believes that students need access to technology when they act in a responsible, efficient, courteous, and legal manner which supports the district vision and mission. Internet access and other technologies available to students and teachers offer a multitude of global resources. Our goal in providing these services is to enhance the educational development of our students. It is important that users understand their responsibilities and conduct themselves as responsible learners at all times. As part of 21st century learning, teachers and students will be using Web Tools which may include, but not be limited to, blogs, wikis, podcasts, and videocasts through appropriate supervision. This may require that teachers create accounts on the students' behalf. These technologies improve student communication and collaboration skills, provide a real audience, and extend learning beyond the classroom walls while building digital citizenship skills. Responsible uses of technology are devoted to activities that support teaching and learning. The following are our agreements about the use of technology.
